

Group A Public Water Systems Not Issued Operating Permits

Report Date: 09/27/2005

Public Disclosure / Disclaimer Statement

The following are public water systems that were not issued operating permits during 2005 for one of the following reasons:

- They did not return the signed application with the required fee.
- They did not return the signed application even though they owed no fee.
- They made only a partial payment of the required fees.

Please note that the water system compliance status may have changed since the date of this report
Also please note what the permit color / category would have been if a permit had been issued

Operating Permit Categories

Red: Substantial non-compliance with drinking water regulations. A Red operating permit category indicates that the water system is inadequate. This could result in building permits, on-site sewage disposal permits, food-service permits, liquor licenses and other permits or licenses being denied for properties connected to or to be connected to the water system.

Yellow: Conditional compliance with drinking water regulations. These systems are considered conditionally adequate

Green: Substantial compliance with drinking water regulations. These systems are considered adequate.

Blue: Water system status is undetermined and will be evaluated when additional information is available.
